

Mrinali Charhate

Mumbai, India

mrinalicharhate@gmail.com +91 8104158875 **Portfolio:** [mrinalicharhate.vercel.app](#) **LinkedIn:** [Mrinali Charhate](#)

Education

Vellore Institute of Technology, Vellore

BTech in Computer Science and Engineering (Information Security)

2023 – Present

- CGPA: 9.15/10.0

Apeejay School Nerul

Secondary Education

2020 – 2023

Experience

Cybersecurity Intern

Abhita Aerospace

Mumbai, Maharashtra

May 2026 - July 2026

- Performed vulnerability assessments across web applications and networks.
- Conducted web application security testing and network security analysis.
- Supported security monitoring and documented findings for remediation.

AI-ML Intern

Reliance - New Energy

Mumbai, Maharashtra

June 2025

- Collaborated with teams to refine requirements for energy data systems.
- Built and evaluated hybrid retrieval models for accurate domain-specific queries.
- Delivered insights through dashboards and demos to support data-driven decision-making.

Projects

SentinelAI (AI-Powered SOC Analyst)

[SentinelAI](#) 

Python, FastAPI, React, TypeScript, LangChain, Elasticsearch, Ollama, Docker.

- Built an AI-powered SOC platform integrating Splunk, Elasticsearch, and Wazuh for threat detection and response.
- Implemented LLM-assisted alerts with MITRE ATT&CK mapping, incident summarization, and analyst dashboards.

Video Frame Reconstruction

[Video Reconstructor](#) 

Python, OpenCV, NumPy, NetworkX, Multiprocessing.

- Reconstructed shuffled video frames using graph optimization, similarity analysis, and minimum spanning tree algorithms.
- Optimized frame sequencing with OpenCV and parallel processing, improving scalability and computational efficiency.

SecureSense

[SecureSense](#) 

Python, DistilBERT, Hugging Face, FastAPI, PyTorch, Docker.

- Developed a hybrid PII detection system using DistilBERT, regex, and heuristics for sensitive data detection.
- Built a FastAPI inference service with overlap-safe masking for real-time document sanitization.

Skills

Programming: Python, C, C++, SQL

Technologies: AWS (Lambda, ECS, DynamoDB), REST APIs, Git

AI/ML: TensorFlow, PyTorch, Pandas, NumPy, Machine Learning, NLP

Soft Skills: Collaboration, Communication, Adaptability

Languages Known: English, Hindi, Marathi

Certifications and Patent

IBM Gen-AI [IBM GEN-AI Certificate](#) 

Supervised Machine Learning (Stanford/DeepLearning.AI) [Supervised Machine Learning Certificate](#) 

Advanced Learning Algorithms (Stanford/DeepLearning.AI) [Advanced Learning Algorithms Certificate](#) 

Real-Time Multimodal System for Adaptive Emotion-Aware Hindi-English Communication (Published Patent)

Application No.: 202641033897
